

## Niagara Falls Invites You!

Niagara Falls, as seen from the lounge terrace of Foxhead Hotel. A fine vantage point from which to view the nightly illumination of the Falls.

Niagara Falls is one of the world's great natural wonders and has always attracted visitors from many lands. Its scenic grandeur never fails to thrill, no matter how frequently it is visited.

Twenty million tons of water pass over the Falls every hour. The spray often rises hundreds of feet in the air. There is much more to Niagara than the Falls. In reality it covers a district twenty by forty miles (the Niagara Peninsula) and offers hundreds of attractive features.

All familiar with this mecca for tourists know that you must be on the Canadian side of the river to secure the finest views of both the American and Canadian Falls, and to enjoy the nightly spectacle during the summer months of colorful illumination by floodlight.

No other hotel is as close to the Falls or as advantageously situated to view the mighty cataract in all its changing moods as Foxhead Hotel. From its wide lounge verandahs, its observation dining room and many of its guest rooms there are excellent uninterrupted views . . . not only of the Falls, but of the beautiful Oakes Garden and the renowned 300-acre Queen Victoria Park, which is one of the finest botanical gardens on the North American continent. Both these adjoin the hotel. The new Rainbow Bridge (international) just below the Falls, is close at hand.
